THE CENTENNIAL WORK IN

The quota of the State of Nevada, to be realized by the sale of certificates of the Centennial Commission, says the Enterprise, is \$11,000. Thus far, we believe, not a single certificate has been sold in this State. This is not as it should be. The one hundred days during which the certificates were to be sold are drawing to a close, and it begins to look as if Nevada would make no contribution at all. As the matter is now before the Legislature, we give, for the information of the members, the following extract from a circular just issued by the Commission. The Commissioners

Books will remain open in the hands of the agents until the 1st day of March next, when the stockholders who have then subscribed will be notified of the time for the election of the Board of Directors, which will be after thirty days' notice. At the time of subscribing to the stock, an installment of two dollars per share musf be paid to the agent; after the organization of the Board of Finance, the balance due will be pay-able when called for by them, in installments of two dollars per share, which will not be earlier than May, July, Sep-tember and November of 1873; or the whole amount may be paid at the time of subscribing. After the organization, the agents of the Board of Finance will receive subscriptions without regard to the quota allotted to each State.

An undertaking so patriotic in its conception, so vast in its proportions, and so useful in its results, commends itself to the hearty sympathy and support of an intelligent people. Patriotism, as well as an appreciation of the beneficial influences of well organized exhibitions, should impel all citizens to lend a helping band. It is the duty of the Commission to prepare the way and open the mission to prepare the way and open the doors, but the people in their sovereign right and strength must make the exhibit.on. By their aid alone can it be made just and comprehensive display of the industrial, intellectual and moral development of the nation during the first century of its existence.

Each subscriber will receive, after or-ganization of the Board, a large en-graved certificate of stock executed in the Treasury Department of the United States, in the best style of the engraver's art, bearing designs illustrating our national progress, and commemorative of the Centennial Exhibition.

It is to be hoped that there will be no pecuniary loss to any subscriber; but should there be, the certificate will in value go far towards compensating for any such loss, not only as a beautiful work of art, but as an heir-loom to be handed down from generation to generation, doing perpetual honor to the pat-riotism of the subscriber. The names of the subscribers will also appear in the printed records of this great national cel-ebration,

By an early subscription you will be identified with the grand industrial mon-ument which the willing and patriotic hands of American citizens will rear to testify their veneration for their self-sacrificing ancestors, and to mark the progress made in a century under the operations of a free government.

AMERICA boasts of a great many fine AMERICA boasts of a great many fine bridges and some very long ones, but Scotland is soon to excel the world by its bridge over the river Tay. This bridge will lack but eighty yards of being two miles in length, exceeding the Victoria bridge at Montreal (heretofore the largest in the world) by 1,127 feet. Its greatest hight will be eighty-eight feet above high water mark. It consists of eighty-nine spans, fourteen of which will be two hundred feet wide. The piers require 2,600 tons of cast iron, and the superstructure 3,000 tons of malleable iron. The contract price for building it is about 1,085,000 pounds in gold. It will be completed in 1874,

Duning the past week a novelty has been introduced into the Crown Point mine. The establishment of a black-smith shop on the 1,200-foot level has been successfully accomplished, and the appointments, such as forge, bellows, anvil, etc., are set up and in working order, two men being steadily at work in the shop.—[Enterprise.

THE Carson correspondent of the Rav-eille says the mines about Austin are not bunches and pockets of orc. We knew that long ago: they are what are called "razor-blade ledges," with the back of the razor upwards.—[Eureka Sentine].

THE value of the railroads and steamships controlled by Tom Scott is eight hundred million dollars.

Misery loves company—and so does a marriageable young lady.

WHAT is the riddle of riddles? Life, for we have "to give it up."

STEELE & DONAHOE.

Contractors and Builders.

Notice to the Public.

WE ARE NOW PREPARED TO CONTRACT
for all kinds of buildings, or to furnish
all the material for such buildings at greatly reduced prices. Owing to the reduction in the
price of water and the favorable condition of the
roads and weather, we are prepared to build fireproof stone buildings as cheap as wooden ones
can be erected, with the present figures at which
lumber is selling. Plans and specifications furnished for all kinds of buildings at short notice
and low prices.

STEELE & DONAHOE, Pioche, Nevada,

STUMPAGE.

A LI. PERSONS ENGAGED IN CUTTING A timber on the public lands, for cord wood, coal, mining timbers or lumber, are hereby required to furnish the Land Register of this District a statement of the number of cords, bushels of coal, number of timbers, number of railroad ties, thousands of feet of sawed lumber, etc., delivered by them during the quarter ending December 3ist, 1872. The statement must also contain the value of the material in the market where it is delivered, the cost of transportation, and be sworn to before a Notary Public or Justice of the Peace, then forwarded to the Register of the Land Office, Belmont, Nevada, prior to February 1st, 1873. ja9-2w
